

## Ensure ReadWorks is on your list of approved tech applications

We want to be your go-to curriculum supplement that helps your teachers and students with reading comprehension for the 24-25 school year! As a nonprofit with 100% free resources, we can sometimes get missed because we do not have to go through a traditional RFP process. We hope that ReadWorks is already included on your list of approved educational technology applications. Here are a few key reasons why districts choose ReadWorks.

- **Free Access:** ReadWorks is completely free to use, all that is needed is an email address. More than a million teachers log into ReadWorks each year - and it is our mission to reach all low income school districts that qualify for 75% or more free and reduced lunch.
- **Alignments:** Teachers use ReadWorks to enhance their ELA curriculum with resources aligned to Next Generation Science Standards (NGSS), popular books, Amplify CKLA, EL Education, and Wit & Wisdom. More content is always being added.
- **Single Sign-On Integration:** We currently offer seamless integration with Clever SSO for teachers (we do not have rostering or student login SSO) and Google SSO for teacher and student login. If you prefer an additional solution, please email your needs at [help@readworks.org](mailto:help@readworks.org).
- **Google Partnership:** As a Google for Education partner, ReadWorks can now be used as a Google Classroom add-on. Google for Education Workshop Administrators will need to install ReadWorks as a Classroom add-on (for Google users only).
- **ClassLink and Additional Clever Consideration:** We are exploring the addition of ClassLink integration, as well as Clever roster and student login, and would appreciate your feedback on your school's interest in this capability. Please send us an email at [help@readworks.org](mailto:help@readworks.org) if either of these additional integrations would be required for you to add Readworks to your approved list.
- **Privacy:** We are part of the Student Pledge Privacy Agreement, and we can collaborate directly to meet any specific privacy needs. Read our privacy statement at [readworks.org/privacy](https://readworks.org/privacy).
- **Certificates:** Recent awards include a certificate in practitioner-informed design from Digital Promise, the Library of Congress Literacy award, and the Edtech awards cool tool finalist.
- **Proven Efficacy:** ReadWorks is listed in Infrastructure's top 36 Edtechs, recognized for our efficacy in improving reading comprehension. ReadWorks' evidence base currently meets ESSA Tier III. We not only write and vet our large collection of nonfiction articles, but we have content from esteemed content partners such as The Museum of Natural History, and The National Fish and Wildlife Association. Our dedication to research, both internal and with external partners, supports this commitment. Case studies are available on [readworks.org/research](https://readworks.org/research).

We encourage teachers to use ReadWorks daily to boost students' reading joy, confidence, and test scores. As a nonprofit, we are dedicated to supporting teachers with high-quality, research-based reading comprehension texts on our online platform.
